About Coventry City Council

Who we are: At Coventry City Council we are dedicated to making a positive difference to the services we deliver to the diverse citizens of Coventry. The work we do improves people's lives – from helping them into work to providing clean and green places to live, to keeping people safe and protected.

As a Coventry City Council employee, you have our ongoing commitment to your growth and development with opportunities to work across multiple service areas including customer contact, public health prevention and education and skills, adults and children's services and provide support for the most vulnerable.

Our aim is simple – to be globally connected, locally committed, deliver our priorities with fewer resources whilst effectively managing our performance and measuring our progress.

Our Values: We expect everyone who works for us to be committed to our One Coventry values and to share our commitment to becoming a more diverse and inclusive organisation:

About the Service your team will provide

Purpose of the role

To provide technical support as part of a team to ensure that traffic regulation orders and similar measures are introduced and maintained in accordance with legal requirements to improve the safety and efficiency of the highway network.

Main Duties & Key Accountabilities

Core Knowledge

- To assist with the investigation of requests for traffic regulation measures, raised by elected members and the general public to address parking and other traffic management problems.
- To maintain a register of requests for traffic regulation measures, including those received through petitions and assist in processing, advertising and responding to them in accordance with Council policies, procedures and relevant legal requirements.
- To maintain accurate records of existing traffic regulation orders, including associated legal and technical requirements, updating the Council's GIS map-based inventory of parking and moving traffic regulations as required.
- To collate and process reports of signing and lining defects associated with existing traffic regulation orders, ensuring that works instructions are placed and monitored with the relevant contractor to rectify all defects as soon as practicable.
- To assist with the preparation of technical drawings and legal documentation associated with the introduction of traffic regulation orders in accordance with national and local policies and procedures.
- To attend appropriate meetings and forums and provide information and advice on relevant traffic management matters relating to the work of the team.
- To assist in the preparation of documents and plans on all aspects of the team's activities.
- To assist with the preparation of reports, including to Cabinet Member meetings in response to petitions and other requests for traffic regulation measures.
- To liaise with other in-house teams as part of the design and implementation process and build effective working relationships with colleagues throughout the authority and representatives of outside organisations as required.
- To assist in the promotion of a customer focussed approach to service delivery through regular consultation and engagement with local communities, Members, partners and stakeholders.
- To be committed to personal learning and development in order to keep up to date with new legislation, procedures, techniques and research, in order to promote continuous improvement.
- Any other duties and responsibilities within the range of the salary grade.
