

# MAT Central Team

## ICT Manager

### Are you the right person for this key role within the Trust and community?

The Trust is looking to appoint an inspirational and highly effective ICT Manager who is committed to supporting academies to educational excellence. The role has come about because of organisational growth and anticipated future growth and recognizing the positive impact such a role can have on the academies within the Trust. Based centrally, you will work with several academies, based in one of the academies in the north of Coventry/Warwickshire. You will work with central colleagues and academies to lead, manage, and monitor the smooth delivery of ICT services across the Trust and its academies. This will include implementation of a Trust

Wide ICT strategy and development of good ICT standards across the trust in terms of software, hardware, remote working/learning, information security and safeguarding of both users and data.

#### You must be:

- Flexible in your approach to work as well as having good organisational and communication skills
- Able to work collaboratively and effectively within a team environment
- Able to work independently and show initiative

#### Do you have:

- A bachelor's degree in computer science or related subjects, or equivalent experience
- Experience of working with senior stakeholders to develop a strong operational understanding

### ICT Manager
